5. Up... Up... Down... Down...

Let us Learn

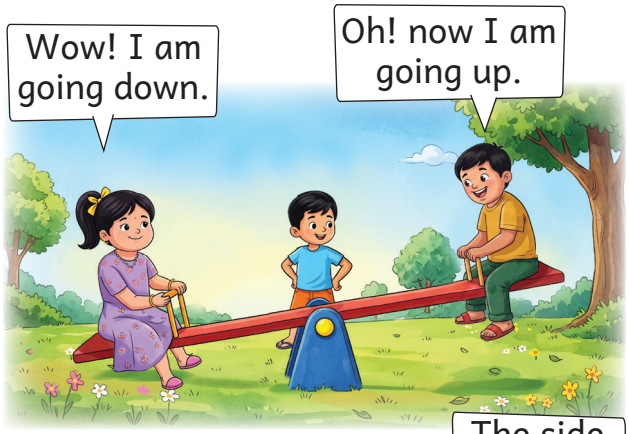

Varun and Naveen are siblings. They were playing on a see-saw in the park.

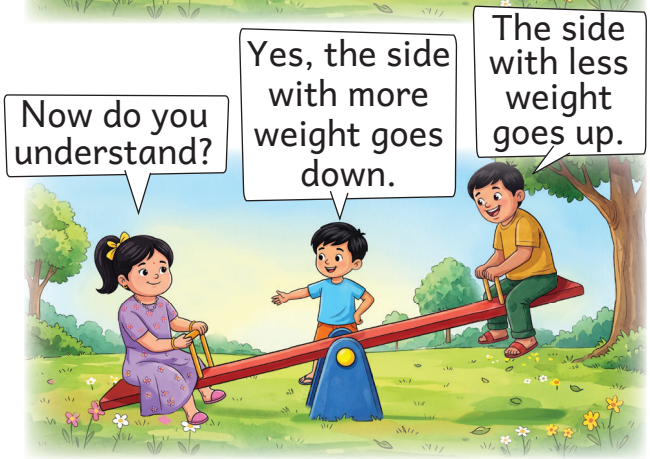

Just then, their elder sister Kavya came there.

They continued playing happily on the see-saw.

THB Narrate the story to explain that the side with 'more weight' goes down and the side with 'less weight' goes up. Then make the children play on the school see-saw to reinforce the concept.
