Let us Do

THB

Arrange the children in two groups. Give them shapes of different sizes cut out from chart paper. Make them sort the shapes based on their sides and corners.

Let us Practise

Circle the shapes with sides.

Mark the corners of the given shapes.

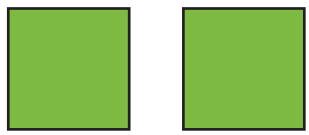

Let us Explore

1.Which shape is different? Why?

2. What shape is formed when two squares of equal size are joined side by side?

- ◯ Circle
- ◯ Triangle
- ◯ Rectangle

3. Fill in the blanks

The shape that has no corners is .....

The shapes with sides and corners are .....
